Forward Looking Statement

Certain statements in this presentation regarding our business operations may constitute forward-looking statements. These include all statements other than statements of historical facts, including those regarding the financial position, business strategy, management plans and objectives for future operations.

Forward-looking statements can be identified by words such as ‘believes,’ ‘estimates,’ ‘anticipates,’ ‘expects,’ ‘intends,’ ‘may,’ ‘will,’ ‘plans,’ ‘outlook,’ and other words of similar meaning in connection with a discussion of future operational or financial performance.

Forward-looking statements are necessarily dependent on assumptions, data or methods that may be incorrect or imprecise and that may be incapable of being realized, and as such, are not intended to be a guarantee of future results, but constitute our current expectations based on reasonable assumptions. Actual results could differ materially from those projected in any forward looking statements due to various events, risks, uncertainties and other factors. We neither assume any obligation nor intend to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Business Overview – Q2 FY26

Segment 1 - Electro-Mechanical Projects and Commercial Air Conditioning Systems

Electro-Mechanical Projects:

- ❑ The Projects business carried a healthy order book of ₹4,840 crore as of September 30, 2025.
- ❑ Orders from Buildings, Data Centers, and Factories remained strong, while we maintained a selective approach in Infrastructure projects.

Commercial Air Conditioning Systems:

- ❑ Business grew in line with market trends.
- ❑ Leadership in Ducted System, strong position in VRF and Chiller categories.

International Business:

- ❑ The business has started gaining traction in H1FY26.
- ❑ Future growth potential is dependent on India-US trade deal.

Segment 2 - Unitary Products

Room Air Conditioner:

- ❑ Revenue decline in Room Air Conditioning business was driven by:
 - Extended monsoon across India.
 - Deferred demand following GST rate reforms from mid-August until late September.
- ❑ Preparations are underway for new product launches ahead of Summer 2026.

Commercial Refrigeration:

- ❑ The recent GST reduction on food products is expected to fuel robust demand growth in H2FY26.
- ❑ We are expanding our energy-efficient, IoT-enabled portfolio and deepening our reach in Tier 2 and 3 markets through localized distribution and service networks.

Segment 3 - Professional Equipment and Industrial Solutions

- ❑ Industrial solutions continued its strong growth momentum on the back of manufacturing and testing demand.
- ❑ Data Security Solutions continued with steady performance driven by robust demand from BFSI and large enterprises.
- ❑ MedTech Solutions is currently seeing a moderation in revenue and profitability due to the uncertainties on regulatory policy framework.
